

Convenient. Fast. Safe.

Emergency Care

LOCATED IN PARKWAY'S ER

# CHEST PAIN CENTER

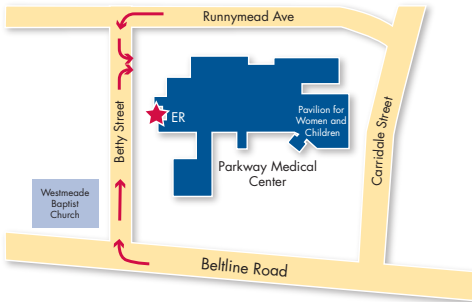

## Alabama's first accredited Chest Pain Center

- Systematic approach for patients with chest pain
- Immediate response and prompt attention to heart related complaints

If you are experiencing one or more of the following:

- » Chest Pain
- » Chest Aching or Pressure
- » Shortness of Breath
- » Nausea, dizziness, or weakness
- » Discomfort in your neck, jaw, arm and/or back
- » Stomach Pain
- » Fatigue

It may be your heart.

Emergency Department entrance on Betty Street.

## Quick care when you need it most

### Improved efficiency and decreased waiting time

- Level 3 Trauma Center
- State of the art patient care for acute illnesses and chronic diseases
- Dedicated pediatric waiting area and exam room

## Fast Track program keeps ER wait time below the national average

### How It Works

- Beds dedicated to the Fast Track program
- Non-urgent patients are treated by a team of both a nurse and a Certified Registered Nurse Practitioner with an emphasis in Family Practice or a Physician Assistant
- The team addresses basic but important needs:
  - » Sprains      » Sore throats
  - » Lacerations   » Minor cuts
  - » Burns        » Prescriptions
- Before discharge, the patient is seen by an emergency physician to finalize the visit

### Highly-trained Staff

- Dedicated physicians, nurses and support staff
- Pediatric and adult life support, cardiac specific training, trauma
